## **DETAILED ACTION**

### ***Response to Arguments***

Applicant's arguments, see Page 7 lines 3-5, filed 04/19/2006, with respect to claim 1 have been fully considered and are persuasive. The rejection of claim 1 has been withdrawn.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 33 and 34 are rejected under 35 U.S.C. 102(e) as being anticipated by Gamoff et al. US 2005/0035134.

The applied reference has a common Inventor with the instant application. Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art under 35 U.S.C. 102(e). This rejection under 35 U.S.C. 102(e) might be overcome either by a showing under 37 CFR 1.132 that any invention disclosed but not claimed in the reference was derived from the inventor of this application and is thus not the invention "by another," or by an appropriate showing under 37 CFR 1.131.

(Re claim 33) "a container for enclosing a web of pre-moistened wipes" (32 figure 2). "a foramen for dispensing a wipe from the roll" (54 figure 2). "a threader" (38 figure 2). "threader releasably attached to the container" (claim 1).

(Re claim 34) "container has a lid, and where the threader is releasably attached to the lid" (figure 3).

***Allowable Subject Matter***

Claims 35-39 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 1,10-13 and 29-32 are allowed over the present prior art.
